PREPARING FOR HIPAA 5010: Reporting ZIP + 4

This is to inform providers of one of the new features that will be added to the Integrated System (IS) to comply with HIPAA 5010 claim formatting requirements. Changes have been made on the Client Information–Contacts Tab. Beginning in April, providers should enter the 4 digit extension in addition to the familiar 5 digit ZIP code. If the 4 digit extension is not available, you should enter 9998 as the extension.
